- Able to Search by Code, Manufacturer, Code Card Number, or Key Blank Number
- Able to Search by Bitting or Partial Bitting
- Full Service Customer Database
- Displays Blitz™ and Punch Machine™ Code Card Numbers
- Displays CodeMax™ DSD Number
- Displays Micrometer Measurements in Inches or Millimeters
- Displays Multiple Key Blank Choices
- Displays Appropriate Cutter and Punch Number
- Displays Appropriate Jaw
- Displays Graphic of Keyway
- Displays Illustration of Cut Key
- Allows User to Add Notes to Any Code Series
- Able to Print Out All Code Specification Screens
- Fully Compatible with HPC CodeMax™
- Timely Updates

CodeSource™ has a database of well over 2.5 million codes that can be accessed quickly and easily. The Windows® operating system allows for quick maneuvering through the program with the point and click method or by clearly marked "hot keys." CodeSource™ allows you to search for a code in a variety of ways: by code number, 1200CMB and Punch™ code card numbers, manufacturer name, or key blank number.

CodeSource™ also allows you to search by bitting or even partial bitting. By simply pressing the "Find by Bitting" button, the program will search the selected code series for a code with that particular bitting. CodeSource™ will then display the code numbers and bittings that match the information you requested. If you know what type of code you need, you may use one of the three category buttons listed on the screen (Lockshop, Padlock, & Vehicle) to locate it. By pressing the button of your choice, a listing of all the code series in that category will be displayed. Highlight the appropriate series and then press the "Open Series" button. This opens a window for you to enter the code you need. CodeSource™ then displays the correct Code Specification screen.

The Code Specification window displays the appropriate 1200CMB and Punch™ code card numbers, CodeMax™ DSD number, complete micrometer measurements in inches or metric, multiple key blank choices, cutter and punch numbers, proper jaw, graphic of keyway, and all pertinent information about the specific code series. From this screen you may download codes directly to your CodeMax™ or print out the screen. With the Customer History function, you can record the codes for your customers' keys.

Keytrail™

KeyTrail™ allows for the complete management of keys, the doors they open, and the people that hold them, all from one screen.

Models

- KT-35—3-1/2" disk format
- KT-CD—CD format

Features

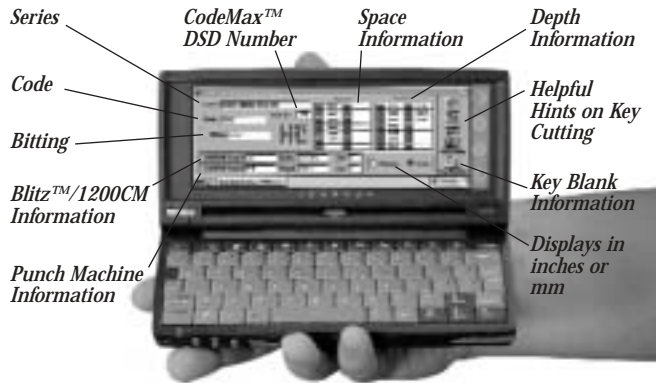

- KeyTrail™ utilizes "drag & drop" technology to move one item to another. For example, to assign a key to an employee, just click on the key and drag it to the employee.
- KeyTrail™ has a very flexible security feature. The system administrator can set up an unlimited number of security profiles for other people who will be managing the system. Plus KeyTrail™ provides an audit trail that tracks all transactions.
- KeyTrail™ generates optional work orders to track cylinder installation and key duplication.
- KeyTrail™ supports Interchangeable Core (IC) systems and can interface with HPC's MasterKing™ and CodeMax™ to make an all encompassing key producing/tracking package.
- Information can be imported or exported in either tab delimited or comma delimited format.

Software Demos

Demo software is available for CodeSource™, KeyTrail™ and MasterKing™. While they are not fully functional, they will give you a demonstration of the value of these powerful software packages. The software can be downloaded from our website or you may request a demo CD.

CodeSource™ CE

Models

- CS-CE—Software only for your Hewlett Packard Jornada 680 Hand Held PC (may work on other hand-held PCs as well).
- CS-CEHPC—Codesource™ CE plus hand-held HPC Jornada PC

Software Features

- Instant Access to Over 2-1/2 Million Codes
- Ability to Search by Code, Manufacturer, and 1200CMB or 1200PCH Code Card Number
- Displays Blitz™ and Punch Machine™ Code Card Numbers, and CodeMax™ DSD Number
- Displays Micrometer Measurements in Inches or Millimeters
- Displays Correct Cutter, Punch Number, and Jaw
- Displays Multiple Key Blank Choices
- Displays Manufacturers' Specifications and Special Information on Specific Code Series
- Timely Updates
- Knowledgeable and Friendly Technical Support

Jornada Features

Hewlett Packard's Jornada 680 Hand Held PC. This hand held PC is loaded with special features and versions of some of the most popular business software available!
