Distributor Information	61

Product Warranties & Liability

1. All goods sold are warranted to be free from defects in material and workmanship, the foregoing comprises seller's sole and entire warranty provided:

(a) The Company has been notified within two years of the purchase date of defects in any trim and within three years of the purchase date in any tubular latch or ten years in any mortise lock, and been given the opportunity of inspection by return of any alleged defective Product to the Company, or its authorized distributor, free and clear of all liens and encumbrances, transportation prepaid, accompanied by the statement of defects and proof of purchase; and

(b) The Product has not been modified, abused, misused, or improperly installed, maintained and/or repaired during such period. All other warranties, written or oral, expressed or implied, and including but not limited to warranties of merchantability or fitness for intended purpose, are expressly excluded.

2. Seller's sole obligation under these warranties, during the period after date of manufacture as listed above, shall be to issue credit, repair or replace any item or part thereof which is proved to be other than as warranted. Seller shall have the sole right to determine whether such parts shall be repaired or replaced or whether credit shall be issued. No allowance shall be made for any labor charges for replacement of parts, adjustments or repairs, or any other work.

In no event shall seller be liable for collateral or consequential damages.

3. We do not warrant against defects caused by improper installation nor against the consequences of uses for which our products were not designed, especially if an FSB lever handle is used with a non-FSB component part such as a mortise lock or tubular latch other than recommended. Our warranty shall only apply if, and to the extent that the purchaser can show that the FSB Product itself was defective and the defect was not related to alteration or to adverse effects of such use with a non-FSB Product or component part.

4. If goods are claimed to be other than as warranted, seller, upon notice promptly given, will either examine the goods at the buyer's site or issue shipping instructions for return to seller (transportation costs prepaid by buyer). These warranties shall not extend to any goods or parts thereof which have been subjected to misuse or neglect, damage by accident, rendered defective by reason of improper installation or by the performance of repairs, modifications or attachment to other products outside of seller's plant.

Specifying Locksets

Lever or Knob Design

1147

The lever or knob selection is indicated with a four-digit FSB Design number.

If you are specifying a lock type or function which does not require a lever handle, begin your specification code with the trim set designation.

Please confirm the lever you have selected is offered in your desired finish. All details on available finishes for each lever are provided in the "Lever, Knob and Trim Designs" section of the North American Manual.

Lockset Prices are grouped according to handle design and base material. To find a lockset price, first identify the price group by handle and material in "Price Groups" on pages 6 and 7.

Once the correct price group is known, the price may be found by cross-referencing the desired lock type, function and trim set on pages 8 through 19.

Trim Set

RA

We have simplified specifying locksets by utilizing a code for the most common trim sets.

Swinging Door Trim Sets

- RA** Hard Edge Rose
2³/₁₆" (55 mm)
- RB** Soft Edge Rose
2³/₁₆" (55 mm)
- RC** Hard Edge Rose
with ADA Thumb Turn
- RD** Rose for 2¹/₈" Pre-Bored
Doors (65 mm)
- RE** Sprung Rose for 2¹/₈"
Pre-Bored Doors (65
mm)*
- RF** Narrow Rose
- RG** Square Rose with Exposed
Fixing
- RJ** Flush Rose (55 mm)
- RM** Square Rose with
Concealed Fixing
- EA** Short Rounded
Escutcheon Plate
- EB** Short Rectangular
Escutcheon Plate
- EC** Long Rounded
Escutcheon Plate
- ED** Long Rectangular
Escutcheon Plate
- CT** Custom Trim Set

Please note that use of Trim Set RA, RB, RC and RD with Series NML is restricted by backset and stop width.

Sliding Door Trim Sets

- SA** Flush Pull (4210)
- SB** Flush Pull (4255)
- SC** Ring Handle (4204)
- SD** Cranked Handle (7000)

*Required for 1³/₈" DT and for any handles shown in price group 6.

Material and Finish

6204

While FSB stocks natural anodized aluminum and satin stainless steel in its North American distribution facility, FSB offers its products in many different finishes. See the list and FSB finish codes below.

Aluminum Anodized

- 0105** Natural Color
- 0205** Champagne Color
- 0305** Brass Color
- 0405** Light Bronze Color
- 0505** Medium Bronze Color
- 0704** Dark Bronze Color
- 0805** Black Anodized
- 1005** AluGrey

Aluminum Powder Coated

- 8120** Black
- 8220** White
- 8320** Red

Stainless Steel

- 6204** Satin
- 6205** Mirror Polished
- 6206** Matte

Brass

- 4205** Polished Lacquered
- 4305** Polished Oil Rubbed
- 4694** Oxidized Lacquered
- 4404** Oxidized Oil Rubbed

Bronze

- 7625** Patinated and Oil Rubbed

Lock and Latch Type

SML

The lock type is indicated with a three letter code.

Mortise Locksets (ML)

- SML** Standard Backset
- NML** Narrow Backset
- EML** European

Tubular Latches (LL)

- HLL** Heavy Duty Lever
- MLL** Medium Duty Lever
- KLL** Knob and Lever

Tubular Deadbolts (DD)

- HDD** Heavy-Duty Privacy
- MDD** Medium-Duty Privacy
- KDD** Keyed

Dummy Sets (DS)

- FDS** Fixed Dummy Set
- MDS** Active Dummy Mortise

Standard Sliding Door Sets (SS)

- LSS** Locking
- PSS** Pocket
- ESS** ADA Entry

European Sliding Door Sets (ES)

- LES** Locking
- PES** Pocket
- EES** Entry

More details about lock types for swinging doors are provided in the "Components" and "Lockset Program" sections of the North American Manual.

For more information on the Sliding Door Locks please refer to the "Sliding Door Hardware" section.

Lock and Latch Function

A

The lock and latch functions as well as dummy sets are indicated with a letter.

- A** Store Door
- B** Dormitory
- C** Passage
- D** Hotel
- E** Privacy
- F** Public Restroom
- G** Classroom
- H** Entrance
- I** Office
- J** Storeroom
- J (EU)** Electrified (Fail Secure)
- J (EL)** Electrified (Fail Safe)
- K** Apartment
- M** Single Key Deadlock
- N** Key x Key Deadlock
- P** Key x Thumb Turn Deadlock
- R** Thumb Turn Deadlock
- S** Thumb Turn Deadlock with Emergency Release
- T** Patio
- Y** Dummy Lever Pair (Back-to-Back)
- Z** Single Dummy Levers

Trim sets are dependent on lock function. Not all trim sets are available for all functions.

Functions are dependent on lock type. Not all functions are available for all lock types.

More details on trim sets and lock types are provided in the "Lockset Program" section of the North American Manual.

For more information on sliding door lock functions refer to the "Sliding Door Hardware" section of the North American Manual.

Examples for Specifying:

Backset

2¾"

Prices for the lock types below are given on the following pages.

Note that lock type NML and backsets 3¾", 5", and 6" of lock type SML are not stocked. Please see "Ordering Guidelines" for lead times.

	2¾"
LES, PES	55 mm
EES	28 mm

Swinging Doors
Sliding Doors

Handing

RHR

The hand of a door is always determined from the outside of the door.

Swinging doors are either right hand (**RH**) or left hand (**LH**) inswinging, or right hand reverse (**RHR**) or left hand reverse (**LHR**) outswinging, relative to which way they open.

For further information on handing for swinging doors please see the "Lockset" section of the North American Manual.

Sliding doors are only handed right hand (**RH**) or left hand (**LH**). See the "Sliding Door Hardware" section of the North American Manual for more information.

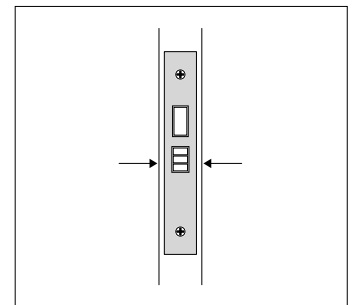

Door Thickness

1¾"

The prices on the following pages are for locksets with spindles for standard door thicknesses from 1⅜" to 2¼".

FSB can supply spindles for doors up to 3½" thick on special order. See "Lock/Latchset Modifications" on page 22 for surcharges for thicker doors.

The thickness of doors should be checked and any discrepancy pointed out when ordering.

1⅜–2¼" Standard

2½–3½" Special Order

1147 - RA - 6204 - SML - A - 2¾" - RHR - 1¾"
SA - 6204 - PSS - S - 2½" - RH - 1¾"

Price Groups

This table indicates price groups by handle design and material.

Items in **bold** are stocked in natural anodized aluminum (0105) or satin stainless steel (6204) only.

Before specifying or ordering, refer to the "Lever, Knob and Trim Designs" section of the North American Manual for available finishes.

Pricing for each group may be found on the following pages:

Group 1	8
Group 2	10
Group 3	12
Group 4	14
Group 5	16
Group 6	18

All set prices shown are for 1 $\frac{3}{8}$ " through 2 $\frac{1}{4}$ " door thickness in natural anodized aluminum (0105) or satin stainless steel (6204).

All finish surcharges are shown at the end of each price group. Other set modification surcharges are shown on pages 22.

	Extended ANSI for T Strikes	30.00	
Keying Services	Keyed Alike (Level 1) *	15.00	
	Masterkeyed (Level 2) *	22.00	
Surcharges are per cylinder.	Grand Masterkeyed or Great Grand Masterkeyed (Levels 3 or 4) *	24.00	
Please allow an additional week for keyed order processing.	Construction Masterkeying	By Quote	
	Extra Cut Keys	5.00	
	Set-Up Fee (Applies to Level 3 and Above per Single Order)	100.00	

A detailed keying schedule, in DHI format, must accompany each keying order.

* Includes two cut keys.

Cylinder Information

	Material	Finish	Lockset Finish			Supplied Cap Finish
			FSB	US	BHMA	
Matching Finishes	Aluminum	Natural Anodized	0105	US28	628	US28
		Black Powder Coated	8120	US19	671	US19
	Stainless Steel	Mirror Polished	6205	US32	629	US32
		Satin	6204	US32D	630	US32D
	Brass	Polished (Lacquered)	4205	US3	605	US3

FSB can only supply five cylinder caps with finishes that match FSB finishes perfectly. All other cylinder caps only resemble FSB finishes.

Similar Finishes	Aluminum	Champagne Anodized	0205	–	–	US28
		Brass Anodized	0305	US4	688	US4

FSB mortise locks can accommodate a variety of cylinders. In general, our SML Series mortise locks use ILCO #19 clover cams for all functions.

Door, Window & Bath Products

On the remaining pages of this book we list all FSB lockset components (levers, roses, locks, etc.) as well as all other FSB products available in North America.

All items listed in **bold** are stocked in our North American Distribution Center in natural anodized aluminum and satin stainless steel. Otherwise we require four to eight weeks to supply a non-stock item or finish.

Please see “Ordering Guidelines” on page 62 for more information on lead times for non-stock items.

To calculate prices for finishes other than natural anodized aluminum and satin stainless steel, please see “Finish Modifications” on page 26.

Ordering Guidelines

Prices

Please note that all prices given in this guide are in US dollars.

Freight

F.O.B. Madison, CT.

Terms

3% discount for invoices paid within 15 days. Payment in full required within 30 days.

Acknowledgements

When FSB receives an order, an "Order Acknowledgement" is issued to the customer or distributor which details the order and gives the expected shipment date. Please check the items and pricing on the acknowledgement thoroughly to ensure accuracy.

Stock Items

All items listed in **bold** are stocked in our North American Distribution Center.

Acknowledgements for stock items are sent one to two business days from our receipt of the order. Orders with only stock items products ship via UPS daily, based on acknowledged ship date.

FSB's goals for order delivery of stock items are outlined below. For specific lead times call FSB, or wait for the order acknowledgement. The estimates below apply only to 2¾ in. backset ANSI mortise locksets, European mortise locksets, and all tubular latch sets with stock levers, knobs and escutcheons.

Quantity	Lead-Time
0-20	1-5 days
21-100	2-4 weeks
101-500	4-6 weeks
500+	6-8 weeks

Minimum Order Size

None required for all products contained in this price list.

Special Orders

When orders are placed for items which are not stocked in our North American Distribution Center, our factory in Germany is immediately notified of the order to shorten lead-times. We receive a confirmation from the factory within two business days. Order Acknowledgements are sent to the customer within three to four days.

Generally, special orders ship within four to eight weeks, depending on product and finish.

If requested on the Purchase Order, all special order products can be shipped from Europe to our North American Distribution Center via UPS Express or Expedited, for an additional charge.

Orders with Both Stock and Special Order Products

Purchase Orders with both stock and special order products are processed as one order with one purchase order number, unless the order is marked "Ship and Back Order."

FSB issues an acknowledgement for all products with one expected ship date.

Special orders take longer to ship, since the order must wait for non-stock items to arrive from Europe.

If the order is marked "Ship and Back Order," FSB will issue two separate acknowledgements with one Purchase Order number and follow the two procedures above for stock items and special orders.

Returns

Providing goods are in salable condition, FSB accepts returns of stock items for a restocking charge of 25% with a \$50.00 minimum.

Please contact FSB in writing for a "Return Goods Authorization" (RGA). Goods are only credited if a customer has been issued a RGA and the goods are received in salable condition. Once the goods are received, FSB will issue a credit memo which can be applied to your next payment. If the items are not returned within 90 days, the RGA is voided.

Non-stock items may not be returned.
