Key Blank Information

Locating the Ilco Key Blank number

Keys are in numerical/alpha sequence beginning with the base number.

Example: 1145
1145A
1145CE
1145J
A1145CE

The **base number** consists of one or more digits e.g., **2B**, **AB62C**, **998GA**, **A1012-24N**, **S1098WD**.

PG	No.
3	S1098WD
6	S1098WH
	SC1098X
	P1099

If the base number has a letter prefix, first find the base number, then the **prefix**. e.g.: **S1098WD**, **H1122F**, **A1145CE**.

If the key's base number does not have a prefix then the **suffix** (if any) would determine that key's placement within the group.

e.g.: 1145**A**
1145**CE**

PG	No.
3	S1098WD
6	S1098WH
	SC1098X
	P1099

Understanding the Price Group (PG) Column

The number in the 'PG' column next to the key blank number indicates that key's price group. Refer to the Price Group Chart on page 3 for the associated pricing.

Understanding the symbols used:

Appears in Key No. Column

- * - Key blank is listed by more than one key blank number such as X137 and TR33.
- † - Key blank has changed price groups since last price list
- # - New item
- ^ - Original Key (see page 39)

Suffix to Key Blank Number

- P - Key blank has a black plastic head.
- PC - Key blank has colored plastic head.
- PT - Key blank has transponder in the head of the key. A suffix number (1, 6, etc.) indicates that the transponder is programmed as specified. PT5 is described below.
- PT2/5 - Key blank transponder can be programmed using the latest Ilco cloning equipment.
- EK3 - Electronic Clonable keys - use the latest Ilco cloning equipment.

Understanding the Finish (Fin.) Column

Finish

Code	Description	Comments
AB	Antique Bronze	This finish is applied to some bit and barrel keys
BM	Bi-Metallic	A bit key made using a stamped steel shank, Nickel Plated, with either a zinc or plastic tip.
BR	Brass	Natural brass finish with anti-tarnish protection.
GO	Gold	A brass type finish for bit and barrel keys.
MI	Malleable Iron	A bit or barrel key made of malleable iron with a Nickel Plated finish.
NP	Nickel Plate	Nickel Plating (mirror finish), extremely durable, usually applied over brass key blanks.
NS	Nickel Silver	Natural nickel silver finish with clear anti-tarnish protection.
PT	Painted	A patterned finish
ST	Steel	Steel key with Nickel Plate finish.
ZI	Zinc	Zinc key with Nickel Plate finish.

PRODUCT AVAILABILITY LEAD-TIME

Kaba Ilco Corp is dedicated to providing fast, reliable and consistent deliveries to our customers. As with any extensive line of products, the manufacturing times will vary. For this reason, we organize Ilco products by "lead time".

In order to better serve our customers, "lead times" (LT) are indicated in the **Comprehensive Key Blank Listing**. These lead-times are also shown at the beginning of each key grouping (i.e. **Ilco-EZ (dual Numbered) Listing**, **Transponder Key Listing**, etc.)

The majority of Ilco stock key blanks have a **standard lead-time of 3 days** from order acceptance. For these items, we have not listed individual lead-times.

"B" lead-times indicate items that are stock items, however unexpected large orders may make these items temporarily "out of stock". In these situations the projected lead-time is 4 weeks.

Items with a **"C" lead-time** may be in stock. Should these items be out of stock, extended lead times may occur.

Custom keys (non-stock) lead times are identified at the beginning of their key groups.

LESS THAN BOX QUANTITY PRICING

All stock metal keys, other than Bit & Barrel keys, will be considered as packaged 10 keys per bag and 50 keys per box. Orders for less than 50 keys/sku, in multiples of 10, will receive less than box pricing. All plastic head keys and Bit & Barrel keys will be considered as packaged 5 keys per bag and 25 keys per box. Orders for less than 25 keys/sku, in multiples of 5, will receive less than box pricing.

VATS, Transponder and Electronic keys may be ordered in multiples of one without less than box pricing. Keys in price groups 22 through 51 will not receive less than box pricing regardless of quantity ordered, but must be ordered in proper multiples as explained above.

A pre-printed Custom Painted Order Form is available for your convenience. This form includes actual size outlines of each key and ordering specifications. To obtain a copy of this form contact our Customer Service department.

General Information

- A deposit equal to 50% of the total order value is due when the order is submitted. Orders will not be processed until we receive this deposit.
- Minimum order is 1,000 pieces per product style.
- Standard packaging is bulk.
- Color / shade variations are normal in the color transfer processes used to decorate these products. We do not guarantee color match.
- One set of three (3) painted pre-production samples will be provided at no charge for customer approval. Pre-production samples are not of the same high quality as the production keys, they are a fair representation of the colors and design.
- Design tooling and art design fees are not cancelable or refundable. These charges are payable with your order submission. After original

artwork submission and sample approval, changes to designs or colors will result in additional charges.

- For Kaba Ilco art development allow 2 – 3 weeks after placing your order.
- Delivery of product ordered is 8 – 10 weeks after final approval of art/sample.
- Re-orders are typically shipped 3 – 4 weeks after receipt of order.

Art and Sample Charges

- A one time art tooling charge of 250 per design will apply to all custom orders. (Same design on both sides is one tooling charge. Different designs on each side equals two tooling charges.)
- Kaba Ilco art/design development or manipulation of customer-supplied art will be charged at \$75.00/hour (minimum of one hour).

Terms used for Coined or Engraved keys

There are several terms used when defining the processes used in putting an image or text on to the bow of a key. Here is a brief definition of those terms. Note: Embossing both sides of a key may result in less than desirable results as there is limited material to spread. When seeking to place an image or text on both sides of a key, if you elect to emboss the text or image on the surface of one side of the key it is generally advisable to incise the other side. Text may be incised on both sides of a key with no difficulty.

Coined: The manufacturing process of placing the text or image on to the bow of the key. In this process, the image or text put on the key bow/head may be embossed or incised.

Embossed: A result of the coining process where the text or image appears raised on the surface of the key. (As on any U.S. coin)

Incised: Normally restricted to text. A result of the coining process where the text is depressed into the surface of the key.

Engraved: Engraving is not a coining process. The text is engraved into the surface of the key using a mechanical or laser engraving machine.

Thumb side: When holding a key between the thumb and finger of the right hand, with the bitted or cutting edge facing upward, the thumb rests on the thumb side of the key. The finger rests on the finger side.

Finger side: When holding a key between the thumb and finger of the right hand, with the bitted or cutting edge facing upward, the finger rests on the finger side of the key. The thumb rests on the thumb side.

HC, HJ, HQ, HY, MC (Custom Embossing)	12
HD, HK, HR, HZ, MD (Custom Embossing, No chain hole)	15

General notes:

- All large bow specialty keys are manufactured only in nickel-silver material.
- Large bow keys are available in many commercial and residential keyways. Automotive keyways are not available.
- Ilco standard embossing consists of a linen weave type finish on the thumb side and the same finish with a smooth (approx. 1/2 x 1) block and the Ilco name on the finger side.
- These keys are made to order, therefore quantities are subject to 10% over or under order quantity. Invoice will be for exact quantity shipped.
- Prices are for standard bulk packaging only. Add 1.50/hundred for 250/box, 100/box, or 50/box. If desired, be sure to specify special packaging when ordering.

Coining die charges:

- A one-time die design charge of 150.00 (text only), per die needed, applies to all 'new' coining. For logos or more complex line art the charge is 200.00 per die needed. A clear black & white copy of the artwork must be included with the initial order.
- Coining die charges are waived if initial order is for 5,000 or more keys.

Order minimums:

- The initial order minimum is 2,000 keys but may be divided among different keyways as long as you have a minimum of 500/keyway.
- Re-order minimum is 500/keyway.

Ad-Line Embossed

Different embossing dies are required for each different head design (refer to the Key Availability List). There is one tooling design charge for each different embossing die. For example, if you ordered AD-1145 and AD-A1145E (these would use the same embossing die) and AD-999 (this uses a different embossing die), there would be two tooling design charges. Likewise, if you elect to emboss both the thumb and finger sides of a key there would be two tooling design charges. The tooling design charges may be waived if the initial order exceeds 5,000 key blanks using the same die.

When ordering: Indicate the key blank number as listed in the Key Availability List. Please submit a clear, black and white, camera ready copy of the logo and/or text desired for both the thumb and/or finger sides of the key. Keep in mind that embossing space is limited and the more detail/text you request, the smaller the detail/text will be. To preserve text clarity, do not exceed 3 lines of copy, 13 characters per line. Please list any special instructions on your order if necessary. Artwork will be prepared and submitted for customer approval before any tooling is made.

Minimum Order: 250/key blank — 1,000 key blanks/order

Example:

Key Number	Thumb Side Description (Logo/Text)	Finger Side (Text)
AD-1179	LINE 1 LOGO -	(123) 456-7890
	LINE 2 see attached artwork	
	LINE 3	

Ad-Line Engraved

Our Ad-Line Engraved Series allows you to specify engraved text for the finger side of the head of an Ilco brand nickel-plated brass key blank. Retaining the original manufacturer's head shape, the Ilco name and key number allows quick key identification when your customers return for additional duplicate keys. Engraving your store name and phone number on these keys is inexpensive advertising and assures repeat business. There are no tooling design charges, so the engraved text may be changed from order to order. The low order minimums enhance inventory turns.

ILCO AND ILCO/ORION KEY MACHINES

This booklet contains prices for the line of key machines now offered by KABA ILCO.

Replacement parts for ILCO® key machines are carried in stock in Rocky Mount, North Carolina. Certain parts are also carried for DL machines and for Taylor machines. Call the Customer Service Department at the KABA ILCO factory in Rocky Mount, NC for availability and pricing of these items.

Key machines are available with 110V motors, 12VDC motors or 220V motors as indicated. To avoid misunderstanding, please specify the type of motor (voltage) desired. If no reference is made to the voltage, we will supply a 110V version.
