HIGH SECURITY LOCKS
ASSA ABLOY

2010 U.S. List Pricing Reference

This document is intended to serve as a price reference for U.S. customers until the 2010 Medeco Product Catalog is received.

How to Use This Reference:

This document is organized by series number – refer to the first two digits of a specific part number for that item's series number. Electronic versions of this reference are available in the partners section of www.medeco.com. As always, Medeco strives to maintain consistent pricing at the lowest possible level. However, unexpected increases may cause changes in our pricing. Therefore, all published prices are subject to change without notice and are not guaranteed. All shipments will be made at prices prevailing at time of shipment. As much as we try to publish error free material, we reserve the right to correct typographical, clerical, editorial, pricing, quantity, or any other errors in this or any publications produced by Medeco Security Locks, Inc. without prior written notice or disclaimer.

Our Commitment:

Since 1968 and the invention of the Medeco high security cylinder to new innovations in high security electro-mechanical locking systems, Medeco High Security Locks, Inc. has continued to lead the market in developing and protecting the integrity of high security locking devices.

The innovative culture and drive for continuous improvement instilled at Medeco by its first President, Roy Oliver, remains a cornerstone of Medeco's commitment to high security.

The continued security of its locks is the number one priority at Medeco, and the company is committed to making sure its products meet all applicable standards.

Independent testing labs, such as those associated with UL and ANSI/BHMA standards, consistently confirm that Medeco high security locks meet or surpass all requirements for a high security cylinder. Medeco high security locks currently meet both the UL437 high security certification as well as ANSI/BHMA A156.30 Level A high security standard. Medeco remains committed to ensuring our products meet or exceed new safety and security standards as they are developed.

Responsibility comes with leadership, and to us this means the continual need to creatively adapt and evolve. Medeco has successfully addressed numerous opportunities for improved security throughout its 40 year history and remains dedicated to doing so.

You have our commitment!

Contact Customer Service:

If you need additional pricing information, please contact Medeco Customer Service at (800) 839-3157 between the hours of 8:00 a.m. and 5:00 p.m. EST, Monday through Friday.

Shipping Charges:

For most U.S. customers, published rates will apply. Shipping charges for customers in Canada and elsewhere outside the U.S. will vary. Contact Medeco Customer Service for more information about Medeco's freight rates.
